I think we should find a way to allow him the opportunity for filming our work but also use it as a means of negotiating copies of the footage he shoots (as well as the San Juan BOCC April meeting??). I would not want us to try and control the content of his filming just provide us courtesy copies if possible.

Steve - What do you think?

Hello, Steve -

I would like to document in video, any 2014/2015 investigations and bulkheading projects in the Upper Cement Creek area of San Juan County, including but not limited to, the Red & Bonita and Gold King #7.

How would you like to proceed with the approval process. I am open to taking any MSHA or Hazwoper training for underground access.

Thank you for your consideration.

Tom Schillaci, Producer
